Part 1 of a 2-part Course leading to a "Certificate of Mindfulness Training" qualification

[Part 2 is on 5 Wednesday Evenings from January 2020 – You must pass part 1 to join part 2!]

Mindfulness is the ultimate way to reduce stress, explore your inner world and open the door to inner peace, creativity and insight - a mind-body awareness based approach that helps people change the way they think and feel about their experiences - especially stressful, frustrating or miserable experiences.

Whether you want to learn new techniques for coping with stress in the workplace or at home, manage anxiety or depression or improve your concentration, energy levels, career prospects and enjoyment of life, Mindfulness brings a fresh approach to your stuck situations.

Mindfulness is all about training your mind and body to become more aware of what is happening AS IT IS HAPPENING. It's about living in the 'HERE and NOW' rather than being stuck in the past or wishful ineffective fantasizing about the future.

Living life on autopilot or "constantly stressed-out" is bad for our health, our wellbeing, our success and our relationships. "MINDFULNESS" training is the tool-kit for turning our life around - for breaking out of the cycle of self-sabotaging negatives and creating the positive-cycle uplifting life experiences that we really want - a life that works for us and nourishes us!

'Dynamic Mindfulness' focusses on your 'here and now' mindful actions, challenges, needs & opportunities, rather than focussing on academic or only the "chilling-out" aspects of mindfulness.
